

Principal's Message

A student asked a Sensei why the Japanese make their teacups so thin and delicate that they break easily. With utmost conviction the Sensei replied that the teacups were made just the way they were meant to be, it is the user who didn't know how to handle them. One must adjust oneself to the environment and not vice versa.

Life, as we know is a journey of constant learning and unlearning. In our role as mentors it is up to us to look and think beyond the beaten path. To endorse the belief of reveling in the greatest gifts of life with a never-say-die attitude in every mind we touch.

The New Year is a time to garner faith within you, discover your latent talents, relish your accomplishments, enjoy the simple pleasures that life offers you and gear up to face the challenges that come your way. One would expect that this period could also be a winding down period where you take stock of what has been and ponder on what else could be.

As the Second Term draws to a close at MSPA, I wish to take stock of the activities that were successfully carried out. A plethora of competitions ranging from Extempore to Solo Dance, celebrations from Diwali to Christmas were joyously conducted. Each activity was meticulously organised for the holistic development of our Patricians. Unwind Thursdays and the MSPA Sports Club were introduced in this Term. Apart from all these we had a successful ISC Inspection which will foster better opportunities for growth. I wish to extend my heartfelt gratitude to the members of my MSPA family for their persevered efforts in carrying out their tasks diligently and painstakingly.

I am indeed looking forward to ample and more development at MSPA, in the Third Term of this academic year. Let us all believe in the flame of hope that will help us Educators, and Parents to kindle the flame of knowledge in the minds of the angels entrusted to our love and care. To help them form a bridge between fear and happiness and develop wings that let them soar into the realm of the unknown.

Delightfully presenting the **Second Edition of MSPA Musings**. I remain.

Yours truly,

Bro. Earnest Martin
Principal- MSPA, Pune.

Editorial

Come October, the calendar is marked with a chain of festivals. First Navratri, then Dussehra followed by Diwali in November and in December, Christmas is celebrated joyfully. Throughout the academic session in MSPA there is hustle and bustle with the celebration of so many festivals. Nevertheless, concentration on teaching and learning is not diluted.

With the partial opening of higher classes in October, there was a whiff of excitement when students started coming back to the classrooms, strictly following the Covid Appropriate Behaviour (CAB).

Still, life is far from normal. The online teaching is no substitute for classroom teaching where students and teachers interact to form invaluable life-time bonds. Countries world-wide have experienced learning losses and increased inequality as a result of virtual learning.

Many challenges lie ahead, but we need to learn to live our lives facing all impediments, fighting all obstacles and emerge as winners. We owe this to our children and we owe this to humanity.

We have compiled the **Second Issue of MSPA Musings**, to give you a glimpse of all the activities and accomplishments of the II Term. We have also shared the students' creative expressions, encompassing their feelings, conveying their thoughts and emotions.

SEMINAR ON CRAFT YOUR CAREER FOR GRADE XI

"Choose a job you love and you will never have to work a day in your life."

On the eighteenth of September, the students of Grade XI had a seminar on – "How to Craft your Career?" by Mrs. Raakhee Vijay Nair. She is a recognized industrial psychologist, behaviour trainer, management moderator, and co-founder of Vajra Learning Solutions. With over 26 years of experience in organizational change, she has been involved in various educational institutions and universities as a teacher, career coach/career transitioner and has inspired many young people.

It was on the part of the school administration to organize the most desirable and insightful sessions for the young Patricians, who are deemed to be promising citizens of tomorrow. It gave students important prospects for their careers. "You shouldn't stick to one job, you have to explore the possibilities," she said. Inspired by her real life, she encouraged the children to see the different possibilities of the world. Children have realized that the world of career opportunities is constantly changing and they must be able to adapt to the environment in order to achieve their desired goals. The session was interactive and very informative.

METAMORPHOSIS - AN ORIENTATION FOR GRADE X

They say a caterpillar feels no pain as it transforms into a beautiful butterfly. This can hardly be said of our children who are on the threshold of transforming into young adults.

Their unmet issues go unspoken... unresolved. In order to address these issues a session was conducted by Ms. Ivy Emmanuel on 18th September, 2021. Effective communication, building self confidence, handling pressure were all well covered during the symposium. Thus, making metamorphosis easy for our Patricians.

INTERSCHOOL WAR OF WORDS

The XXVI Rev. Bro. C.T. Ritchie Memorial Senior Inter-School Debate was organized virtually on 18th September, 2021. "This house believes that digital detox is necessary for the welfare of lives" was the topic given to us. Since it was a debate, we had to be thoroughly prepared for the competition. We gained quite a few valuable insights during the preparation. We also got to know the ill effects of technology and understood the importance of maintaining a healthy balance between the real world and the digital world and the importance of moderation in life. It was a very charging and lively competition. It had participants from 8 schools from 4 different states. Many of our opponents were very eloquent and confident. Though we did not secure a spot in the top three, we put up a good fight to put across our view points against our opponents. In a nutshell, it was a novel and a wonderful experience which will help us in the future. We definitely look forward to participating in many more such events under the mentorship and guidance of our dear Principal and Teachers.

TOY TALK COMPETITION (GRADE I & II)

To develop good speaking skills and confidence in our students, a competition on the topic 'My Favorite Toy' was held on 28th of September, 2021. Kids described their favourite toy and why it is so special to them. Students had brought variety of toys like soft toys, legos, dolls, cars, dinosaurs etc. They described why the particular toy is their favourite. The students participated in this competition with excitement to share information of their favourite toy. Speaking about something they love always makes them love it even more!

"Hindi is the soul of the Indian Culture." HINDI DIWAS

Aptly said by Kamlapati Tripathi, who was an Indian politician, writer, journalist and freedom fighter. Hindi indeed is the lingua franca across much of North and Central India and the official language of the Indian Union. To showcase the importance of the day and raise awareness about the language, 14th September every year is celebrated as Hindi Diwas. There was a special literary and cultural programme organized in Hindi by the Hindi Department to celebrate the event, which commemorates the adoption of Hindi in the Devnagri script as one of the official languages of the nation. The students' participation was overwhelming. Their speeches, recitations and skit in the Hindi language were flawless and greatly appreciated.

COLOUR DAY LKG & UKG

Colours not only make our world beautiful but also play a very crucial role in our day to day activities and lives in general. A life without colours is like a bird without wings.....unimaginable! The tiniest tots of MSPA, who have recently set out to explore the world around them, are taught about colours by celebrating Colour Day. Each section of the Kindergarten has its own colour assigned. The students dressed in those beautifully glowing colours created such a fervor that it seemed God made colours with inherent properties that would brilliantly draw out parts of His glory. Their colours resplendently reflected just how their spirits are - pure, innocent, joy-filled and energetic. The splendid spectacle was a sight to behold.

MSPA MUSINGS FIRST ISSUE RELEASE

The year 2021 seems to be a year of many new beginnings in MSPA. After the grand launch of the **official Website**, the **Campus Care Entab App** and the **first ISC Batch** in the **First term**, the **Second Term** had the launch of the **eNewsletter MSPA Musings** and the celebration of **Brotherhood Day** on **4th October 2021**.

The eNewsletter, **MSPA Musings** is the brainchild of our **Principal Rev. Bro. Earnest Martin**, who has a penchant for perfection, excellence and quality. It was initiated with the objective to efficaciously reflect all the important events and happenings at school.

The **First Issue** was released on **4th October 2021** by **Rev. Bro. Gubendiran**, **Vice President and Community Leader of Patrician Brothers Community- Pune**. The grand event was a **red-letter day** in **MSPA**. The **Inaugural Issue** had a grand launching in the **You-Tube channel** which was viewed by an **overwhelming number of spectators**. The excitement mounted exponentially.

MSPA Musings ecstatically encompasses the essence of

Mesmerizing Moments, Unshackled Imagination, Stupendous Creativity,

Incredible Patricians, Nuanced Events, Grandeur Unbound, Scintillating Strokes

MSPA Musings

BROTHERHOOD DAY

“Love God and live together in peace and charity.”

**-Bishop Daniel Delany
Founder of Patrician Brothers**

The **Congregation of the Society of the Brothers of St. Patrick** has for its crest and crowning the ideology of **human brotherhood**. **Love for God and love for God’s creation** irrespective of **race, religion, caste, colour and nationality**, was what motivated them to spread the light of education worldwide and through it their vision of brotherhood.

Therefore **Brotherhood Day** was celebrated on **4th October, Feast day of St. Francis of Assisi** who is revered as the **Patron and Model of Religious Brothers**. **Rev. Bro. Earnest Martin** enlightened the staff on the bountiful harvest of inspiration we can reap from the life of **St. Francis of Assisi**.

Brotherhood Day will be celebrated every year to remind us that if we do not learn to live together in peace and harmony as brothers, we shall all perish. **Brotherhood alone** will ensure peace among all people.

ENGLISH EXTEMPORE COMPETITION: GRADE VI –VIII

Students need to speak well in their personal lives, future workplaces and social interactions. Extempore is one such method which trains the students not only to think on the spot but also voice their creative ideas with precision and spontaneity. To imbibe a true spirit of learning and to enhance communication skills, English Extempore Competition is held every academic session for grades VI-VIII.

The competition was conducted on-line. The students were asked to select a number, the topics listed was then announced, and preparatory time for two minutes was given before the student was asked to speak. The topics varied from 'If I get Superpowers for a Day', 'My Encounter with an Alien', 'Competition vs Collaboration', 'Rote Learning Vs Hands-on Learning', 'Artificial Intelligence' and 'Virtual Reality'. The judges evaluated the participants on content, articulation, expression and fluency. The competition was entertaining and enriching.

WORLD FOOD DAY

The World Food Day was celebrated in MSPA on 16 October, commemorating the founding of the United Nations Food and Agriculture Organization. The FAO was established with the goal of raising awareness about poverty and hunger, as well as taking the required steps to address these issues. Every year, a theme is chosen to honour this day. "Our actions are our future - better production, better nutrition, better environment, and a better life," is the theme for the year. In today's world, the value of health, the environment and life is extremely important. As members of society, it is our responsibility to take action, which may be accomplished by following a few basic steps, as Mrs. Ancy George explained. Ma'am educated the kids on the significance of eating nutritious food and staying away from junk food. She also emphasized the importance of not wasting food because many people on this planet do not have access to food regularly. So we should be grateful for the food we do have in order to live a healthy and productive life. The programme continued with fancy-dress presentations about healthy food, speeches on the significance of the day, and poetry on healthy food.

ENGLISH RECITATION GRADE I-V

Poetry is when an emotion has found its thought and the thought has found words. The students of grade I-V, enthusiastically participated in the competition as they got an opportunity to exhibit their talents and confidence.

Recitation activities help students to build confidence as they learn to speak more accurately and persuasively.

Our children astonished everyone with their voice modulation and amazing memorizing skills.

E – Certificates were awarded to the best performers.

ESSAY WRITING COMPETITION GRADE VI-IX

Essay writing is a crucial skill for today's students and future global sculptors. Mount Saint Patrick Academy's young authors had the opportunity to compete in the Essay Writing Competition for grades VI to IX and XI, which was held in the month of October. Beautiful and intelligent writings swamped the instructors' desks and selecting the finest proved difficult. Meghana Phakatkar and Vedant Yelpale from grade VI; Adaan Das, Utkarsh Tripathi and Ananya Kadam from grade VII; Navika Naishadha, Gaurangi Madasnal and Arya Agrawal from grade VIII; Suhana Mohanty from grade IX; and Kusumita Madasnal, Madhavan Ganeshan and Aryan Sharma from grade XI were among the high performers.....

BACK TO MSPA

MSPA opened its door to physical sessions for Grades VIII to XI on 13th October, 2021. A comprehensive plan prioritizing the safety of everyone on campus was drawn up weeks in advance under the guidance of our Principal, Rev. Bro Earnest Martin. While the students were more than excited to get back to the dear portals of MSPA. The Staff was happy to get back in action after several months of virtual teaching. A warm welcome was accorded to the students by the Principal and Staff.

PTA MEETING

The progress and development of children depends on the joint efforts of parents and mentors. It is therefore, crucial that Parent body and the School work in tandem. A PTA Meeting for the Second Term was organized on 23rd October, 2021. Representative Parents were made aware of the importance of the PT Association. Various matters related to the functioning of the school were discussed at length. It was a day of fruitful discussion and exchange of ideas.

DIYA DECORATION AND LANTERN MAKING (GRADE I- V)

Diya Decoration & Lantern Making Activity was held on 29th of October for grades I to V. The main purpose of this activity was to explore the students' imagination, creativity and celebrate the Festival of Lights in its true spirit.

All students participated enthusiastically in the activity. Grades I & II painted and decorated the diyas with paints, glitters and other decoratives. Grades III to V decorated the earthen lamps and also made lanterns. The students displayed their artistic innovation by beautifully colouring and decorating the diyas.

ISC INSPECTION

Mount St. Patrick Academy in Pune geared up for an official inspection as directed by CISCE for the purpose of upgrading to ISC. **Ms. Shabnam Desai**, Principal of GEM INTERNATIONAL RESIDENTIAL SCHOOL, in Karnataka paid a visit to our school on October 30, 2021. She was very pleased with the hospitality. She was very impressed with the overall infrastructure of MSPA Pune, including buildings, capacity to accommodate children, laboratories, playgrounds and parks. She was also enthralled with the documentation and log bookkeeping system that is consistently maintained by the faculty, the staff and the school management. The school is overjoyed to announce that it is now affiliated with ISC and currently has registered its first batch consisting of thirty-four students who will be appearing for the ISC Examination in the year 2023.

DIWALI CELEBRATION

The five-day festival of lights is the much awaited and most extravagantly celebrated festival in the entire year. It is a synonym for dispelling darkness and welcoming light. It celebrates the triumph of light over darkness and victory of good over evil. It has now become a national festival that is celebrated by most Indians regardless of faith.

MSPA also had a joyous celebration on the 30th of October. A special programme was organized on the virtual platform. Students participated in group dances; celebrating the delight of the glittering festival, Hindi skit; throwing light on the legends related to the festival and speech reminding us to be mindful of the ill-effects of crackers.

The celebration illuminated the hearts and minds of the participants and the viewers, filled the atmosphere with mirth, love and gaiety. It geared one and all to partake joyously in celebrating the festival of lights.

SOLO DANCE COMPETITION

“Children are not born with a competitive urge ...they learn it.” True to its tradition of organizing multiple creative events for the holistic development of our Patricians, MSPA hosted a Virtual Solo Dance Competition in the month of November. The extravaganza showcased a multitude of dance forms presented zestfully by the students of Grades I to XI. The students set the virtual dance floor on fire with their robust performances.

GRAND SCHOOL TOUR - KG SECTION

The little tots from LKG and UKG had a lovely time when, they finally had an opportunity to enjoy the pleasure of taking a school tour. After a year-long wait, the UKG students happily strolled through the mazes of the school corridors with their parents and teachers. The bright pleasantries and warm welcome that had been arranged for the fresh admits of LKG were equally enthralling, with colorful balloons and streamers. The energetic, spirited and lovable kids not only enjoyed the classroom experience, but also the lush green playgrounds. Their playful activities revived the spirit of the campus.

POSTER MAKING COMPETITION

Poster contests can help raise awareness and deliver information. To pique the public's interest in a topic, disclose community issues and promote awareness of a topic in a visually appealing, inclusive and entertaining manner. The youngsters have distinct ideas and a lot of creative concepts, which they express via their art. Poster-making is one such medium through which the responsible thoughts and worries for the society that children's minds contain can be presented in the simplest way possible.

Mount Saint Patrick Academy held a 'Poster-making' competition to encourage young people to participate and it goes without saying that their canvas of poster was a beautiful, symbolic depiction of their flair and creative concerns.

CELEBRATING CHILDREN'S DAY

The academic year 2021-2022 is one of continued virtual festivities. The Staff of MSPA replicated the activities that were usually conducted in the school albeit virtually. Teachers were at their creative best as they remotely presented synchronized musical renditions, succinct poems, fluid dance performances and rib-tickling plays. All in all a vibrant moment taken by the mentors to relive their childhood in the times of the ongoing pandemic.

BHEL AND SANDWICH-MAKING ACTIVITY

Bhel and Sandwich making Activity was organized by the school for the KinderGarten Section on the 18th November and Grades I to V on 25th November 2021.

Students had to choose any one activity from Bhel making and Sandwich making. This activity was conducted online. The students and parents pro-actively participated and prepared healthy vegetable sandwiches. Children assembled the brown bread, cheese slice and slices of tomatoes and cucumber, sprouts, puffed rice and relished the delicious self-made treats. Their activity helped young chefs-in-learning how to be self-reliant. Kitchen apron, chef's cap and plastic gloves were used to ensure hygiene.

Students enjoyed the activity tremendously and were very happy to savour the same. It also improved their five motor skills, language and vocabulary.

PRINCIPAL'S DAY

A birthday is a day to be spent in gratitude as there are too many blessings life bestows on us. The staff of MSPA celebrated the birthday of our dynamic and diligent principal, whose name itself defines him; **Rev. Bro Earnest Martin, on the 27th of November 2021.** Under the directions of the Community Leader Rev. Bro. Gubendiran, a prayer service was organized, a tree-plantation drive conducted, birthday greetings and wishes from the Patrician Brothers and staff members were enunciated. The day ended on a happy note where the staff partook in celebrations as one family.

QUIZ COMPETITIONS (NOVEMBER - DECEMBER)

Competition is essential for the development of a pupil. It not only makes the youngster physically fit, but also contributes to the development of the child's personality. Just as sporting events bring about the physical competence in the child, quizzes play a crucial role in the development of a child's intellectual competency. MSPA held inter-class quiz competitions from grades VIII, IX and XI to promote this component in the young Patricians. The kids from VIII C, IX C, and XI A performed exceptionally well in this group activity.

CELEBRATING THE NATIVITY OF CHRIST

"Christmas is happiness because we see joy on the faces of the people we love."

Christmas is an enchanting time at MSPA. The boundless joy of celebrating the festival of the Nativity of our saviour, Jesus Christ is always quite evident on the faces of Patricians. The colours of Christmas were visible in every corner of the facility. The celebration this year too was abounding with dances, carols, tableau and plays. The educators' presentation of a medley of carols was the finale of the celebration.

UNWIND THURSDAY AND PT SESSIONS

At MSPA, we believe in providing multiple platforms for showing the creative endeavours of our children, and thus 'Unwind Thursday' was initiated by our Principal Rev. Bro. Earnest Martin. Art and Craft, culinary, conversation, story-telling and a multitude of intra-class activities are organized by the Class Teachers. The pinnacle of talent presented during the Unwind Sessions is a treat to watch. Physical fitness has always been given ample importance at MSPA. The pandemic could not restrain our Sports mentors from providing virtual physical fitness training to the students. A weekly one-hour live session on Yoga, Aerobics, Zumba, et cetera is conducted for the students.

STUDENTS' ARTICLES

DESCRIBE THE THRILL IF YOU GET SUPERPOWERS

Superheroes and superpowers fascinated me since childhood. I grew up watching 'Yokando' when I was a kindergarten student. Then came along 'Bal Hanuman', 'Ghatokkach', 'Little Krishna' and many more. Now I am thirteen years old and a big fan of 'The Avengers'. I sometimes wonder how these super heroes feel having superpowers. Superpowers can be of many types like having power to fly, super strength, resistance to injury, time travel and much more. Now suppose, if I get superpowers then what would I do with it?

We are humans so everyone has some kind of power but it takes common sense to know and use it. If I get superpowers, the first and foremost thing I would do is undo COVID -19 pandemic. I want the world to be on track and not offbeat just because of a 'teeny-tiny' virus. I will use my powers to keep mother Earth safe from pollution, global warming and disasters. I will speed up the process of finding alternative sources of energy so that we never run out of gasoline, electricity and coal. I will make sure that everyone gets the basic amenities: food, shelter and clothes. I will make my home high-tech using automated machines to reduce my parents' work.

I would do everything in my power to promote space travel and time travel. Finding aliens and alien planets will be one of the expeditions. We will have friendly relations with the aliens. I will make a protective shield around the earth using water and air molecules in case the aliens attack Earth!

I will fly around the world with supersonic speed, dive into the deepest ocean, climb the majestic Mount Everest, walk with lions, tigers and rhinoceros. I will have a lot of fun with my friends. I will traverse the universe to see the galaxies and the Milky way. I will make everyone obey me and my friends with my powers. I will do everything in my power to promote education for gaining knowledge and not for exam purpose. Exams take away the essence of education. I will have psychic powers to read everyone's mind and act accordingly. I will have visions of the future to know everything. I would heat milk with 'laser eye' power and make icecreams with my 'freeze breath' in a span of seconds. I would sit on top of the Eiffel tower and Burj Khalifa. I will go invisible to prank my friends and sister.

My friends and I will also visit Moon and Venus, fly over Amazon river basin and admire the beauty of the vast oceans. We will have a look at the earth from space. I am sure the blue planet will look beautiful. We will study history by actually living in it. We will also travel to the dinosaur era to know more about them and ride them. We will time travel back in times of Ram, Lakshman, Hanuman and Krishna to meet them. We will spend time with sages to know their source of knowledge and their spiritual powers.

'It is not the power that corrupts man but man misuses power'. I agree with this statement completely. I understand that with power comes responsibility. It has to be used sensibly otherwise it will not take much time for destruction. I will give hope and faith to everyone to face the challenges of life. I will use my powers for the betterment of all. I will make sure that on earth no one is left behind or feels lonely. I will make Earth a better place to live in.

FROM DARKNESS TO LIGHT

Over the last two years, the globe has been irrevocably changed by the Covid-19 pandemic, causing a great deal of chaos. Many people have perished, and the global economy has been on the verge of collapsing. Multitudes have been afflicted by hunger and poverty. Even though the epidemic has had so many unpleasant consequences, there is always another side to a coin. To begin with, the Covid-19 epidemic has mentally fortified us. Remember how terrifying the 2019 pandemic was when it was first identified, and how vulnerable people were in the early phases of the blockade!

The pandemic has also brought our family closer together. Who can forget the time we spent with our families? After all, nothing binds as strongly as calamity. Humans have become closer as a result of it. We have made it through the difficult times, thanks to people aiding one another and standing together. After all, who would have guessed in their wildest fantasies at the start of 2019 that by the end of the year, we would be locked up in our own homes? At the very least, the covid-19 is environmentally friendly. When humans did not pollute the environment, it made the planet greener and cleaner. After all, it taught us that, humans are frail, compared to the formidable nature. Nature can endanger human life at any time. Humankind has fought a great many natural disasters in the forms of earthquakes and droughts but when it's Covid there is constant doubt about our strength and capacity. To end the pandemic, we have to fight Covid -19 a little more.

BHARAT SINGH RAJPUROHIT XI A

EXISTENCE OF COVID-19

The whole world is suffering from the deadly pandemic which we know as Covid- 19.

People say because of a bat, covid -19 came into existence.

It is right but I think, it has not spread because of any innocent creature but because of humankind which let the virus to spread and carelessly ignored it.

In the beginning people were warned, not to go out of their houses often, to wear mask, to use sanitizers, to keep social distancing, but I think some of them chose not to follow these precautions but to enjoy their lives and because of their careless action millions of people died.

If we go outside our houses, there are hundreds of people not taking precautions, it seems to me like nothing has ever happened, there is nothing such as covid 19 there, people are roaming casually.

We don't have any case, that doesn't mean there is no covid.

Our battle with covid-19 is not over yet.

The Indian government is also helping people to get covid -19 vaccinations so that our lives get normal like before but still there are some people who don't want to take vaccines.

It is foolish of us not supporting the government, the community helpers and the people in this bad time.

We should at least think about the community helpers who have been working to make our lives better.

We must follow the precautions to get rid of covid forever and live our lives just like before.

*In any way on any day: **prevention is better than cure.***

DESCRIBE YOUR FANTASY WORLD

Each one of us imagines a world that we dream to live in. A world of their choice, their likes and passion and all the goodness that they wish and desire are included in this world.

Though the truth is that we cannot live in such a world, a dream-world does exist in each one of us.

I too have a fantasy world of my own. I dream big, far and wide of the world that I live in. I dream of a world where there is no hatred and violence. I have read in the newspapers, seen on television and heard my elders speak of the unhappiness in the world today.

I am sad and afraid to live in such a world that is full of sins and negativity. I have a dream-world where there is no violence, no hatred, no greed, but peace, love and harmony. A world where humankind helps each other and is not jealous of each other, where people are not categorized based on their caste and creed, where there is no difference between the rich and poor, but rather considered as equals. A world where there is lots of fun, goodness and where it is safe for every human being who lives there.

Though this is a dream, I sincerely wish that our world would one day become a place filled with love and harmony rather than what man does, with all his hatred. We need to guide the coming generation and we have the equal responsibility of showing them the right path in life. Though this is my fantasy world, I would strive in every way that I could, to get my dream to reality. Show that the world could be a much better place and when my dream comes true, it would be worth having such a dream.

So, always dream high and try getting your dreams come true because the fulfilment of a dream is a great feeling and is indeed a great success to have a fantasy world come true. Let us hope that each of our fantasy worlds are much better and happier than the world we live in now.

NAVIKA NAISHADHA , VIII - B

HIS JUSTICE

*In the real world ironically, fakeness abounds in plenty
What is projected to be true is far-fetched from reality.
Truth often remains unheard, goes unnoticed, lies unearthed.
The world bows down to fallacy. You may call it obnoxious,
Tag it horrendous, label it scandalous
Such is the world's astounding stupidity:
Virtue is outdated, vice reigns supremely.
But how long will truth be eclipsed? How far will falsehood
saunter?
God has a way of making things fair. His Justice does not
slumber.
He will reward the righteous. His Justice shall rule forever.*

VINEETA D'CRUZ, HOD ENGLISH

MY POETRY

*My poetry is the sacred shrine in the very core of my
existence,
Where my thoughts and feelings dwell, all emotions raw
and real with time subside or swell.
My poetry is the secret chamber that houses all my scars,
It also has the musings of all my vacant hours.
My poetry is my soul soothed in a silent cry expressed.
My poetry is my wounds healed which the world has oft
ignored.
My poetry is the passionate outpourings of my heart that
at times bleeds.
My poetry is the fabricated fantasy which the spindle of
my mind weaves.
My poetry is a therapy that makes me entirely whole.
My poetry is the warmth of my spirited sunny soul.
My poetry is the merry tune I sweetly sing all day.
My poetry is my queendom I rule it all the way!*

STUDENTS' ARTICLES

A FASCINATING DREAM

It was just another totally normal, nothing more than run-of-the-mill night. It was Saturday and nearly 11:00 p.m. Thirty minutes past my bedtime, but my mom didn't say anything, as the next day was Sunday and she was watching a movie. I was lying on my bed and reading a book; '20,000 Leagues Under the Sea, by Jules Verne. Soon I felt drowsy, I decided to keep the book down and get some sleep. I could not guess what time it was, when I suddenly woke up with a jolt. I looked around ...nothing out of the ordinary...or was it? Just as I was going back to sleep, a book, caught my eye. It wasn't a normal book, it seemed to be glowing a shade of golden and glossy purple. Then, as if some mysterious force had caught hold of me, I was suddenly lifted off my bed. I tried to scream but my voice seemed muted. I was terrified beyond belief. I was being pulled towards the book and then I managed to take a look at its cover! It was the same book I was reading that night! How could it be? But it was. I was sucked into the book through some kind of portal, as far as I can recall, I was knocked out. When I woke up, it was morning, and the sun was so bright that it was straining my eyes. I tried to cover them when I noticed, I was handcuffed. I looked around and saw that I was in something not huge, but gigantic. The surroundings seemed like an ultra-luxury room of a plush hotel. Then the doors to the room burst open, in walked a man. Short, with steel-rimmed spectacles, dressed in an old-fashioned way. When he spoke, I realized that he was speaking in French, so I replied 'je ne comprends pas'. This was all I knew in French, so he replied, "I'm sorry monsieur, what I wanted to say is that the nautilus is under attack from a giant devilfish." Nautilus! Giant devilfish! I was in the book! I was in the submarine! Since I had read the entire book many times, I told him all the weapons they needed to slay the devilfish. After the mission was complete, a portal opened, and I realized at once it was time to go home. The submarine's captain and crew bid me goodbye, I entered the portal, and I was back in my room. I opened my eyes, my mom was beside me, she was telling me to get up. I asked her if I was in my room all night. She nudged me "Don't ask silly questions," and apprised me that I was mumbling some words in French. That's when I realized ...it was all a dream, a mysterious and a fascinating dream!

VARUN KUMAR VI B

MY COOKIE

I was eight years old when my mom bought Cookie home. I waited for her since forever. When I was quite young, I used to see people walking their pets around and enjoying their company, since then I wanted a pet. Almost every day I requested mom to bring home a pet but the answer was always 'no'. My mom went to office and I used to spend my day with my grandmother. My mom did not want to get a pet as I was too young to take care of it and my mom did not want to burden my grandmother. I always used to request mom to get me a dog. One fine day mom told me we had to go out to bring my grandmother's medicine but she took me to the pet shop. There I saw my Cookie, she was a little fluff ball, she was running, jumping and over-joyed. We bought Cookie home and since that day my life completely changed. I became more responsible and punctual. My morning started with taking her for a walk and the day ended cuddling her. Everything seemed to be too good to be true; it all felt like a dream. Days passed and everybody became very busy in their lives, I was in high school and my study time increased. My mom was going to office and my grandmother aged. We were so busy in our lives that we didn't pay much attention to her. Lockdown was the time when we started to spend more time with her and everything was just perfect but then one day, she was infected with a disease. Doctors said she will be cured in no time but it became more serious day by day and soon the fateful day arrived. It has been six months since she left us, but it still feels like I'll wake up the next morning and she will be sitting there looking at me with her cute shiny eyes, waiting for me to take her out. Having a pet is a great experience, you learn a lot but losing them is the toughest thing ever!

HOW INTERNET HAS CHANGED THE WORLD

As science and technology have evolved, our lifestyle has experienced enormous changes. From the first telephone to the first medical drug, every invention and discovery, innovation and development has significantly affected life across the globe. The same is applicable to internet as well. Since the first internet connections were laid in the late 1950's, the world has undergone uncountable changes, thanks to the power of the World Wide Web. From the basic needs to the utmost luxuries, almost every aspect of our lifestyle is now impacted by the internet. In the future, the dependence on the internet and its role in our lives is expected to grow more. The world is now a global city and internet in many ways is responsible for that. With the power of the www and smartphones, we can now connect with anyone, anytime from anywhere.

No one would have ever imagined that business could be performed across the world through a computer, but the internet has made it possible. With the advent of information technology, more and more people are using it as a great platform to promote their goods and services. Starting from small entrepreneurship firms to multinational companies, almost all types of business are using the internet to its fullest.

With the usage of the internet, imparting education is now possible from the comforts of our home. All over the world, online education has brought a revolution in teaching-learning, sharing and gaining knowledge. If you have an internet connection and a computer, you can easily enroll in any educational program anywhere in the world.

Many reputed schools, colleges across the world now offer a number of online educational programs in diverse fields. The internet now acts as the ultimate guide to all the information and queries about beauty, style, fashion, lifestyle, personal grooming and much more. There are many websites that provide professional and expert information, guidance and tips on various aspects that enhances one's personality.

Apart from these, there are a myriad sectors where the internet has done amazing wonders. Some of them are health care, sports, multimedia, manufacturing and retail, public administration, banking and a lot more. With advancement in science and technology, more and more sectors are coming under the umbrella of the internet and its boom is expected to become boomer with the passage of time.
